## TOILET TO TAP WATER PLAN FOR DURBAN

Durban plans to become the first SA City to purify & RECYCLE SEWAGE WATER INTO DRINKING QUALITY TAP WATER and officials are urging residents to comment on the proposal as soon as possible. Golder Associates state: Numerous studies show that conventional wastewater treatment plants could not remove endocine disrupting compounds (EDC's) completely. EDC's are derived from pharmaceutical and personal care products and can cause GROWTH DEFORMITIES, GENDER BENDING EFFECTS and other ECOLOGICAL IMPACTS, even at low levels.
