

Arrive Alive!

The Holiday season, while generally a time of relaxation, has become a time of tragedy for many. Traffic collisions have become so frequent during this time, that it has become a number's game of counting statistics. One of the major contributing factors to collisions is reckless and inconsiderate driving.

As humans, and moreover as Muslims, it is our duty to ensure that we do not become the cause of loss of life and injury to others. The Islamic Jurists have recorded that each person, when using public space, owes every other person an extra duty of care. Allah forbid, should our negligence be the cause of loss of life or limb, we would in an Islamic state be liable for prosecution and compensation. Moreover, we will be liable in the Court of Allah Ta'ala, from which no one can escape.

We have seen too many lives lost in traffic collisions. Every year statistics tell us of thousands of lives lost. Be careful and considerate. Do not make yourself, your family and someone else's family another statistic.
