

Protect the Imaan of Your Child!

The greatest investment that any community can make is to invest in their children. Our children are our future. If we invest in today's children and develop them into people who are firm in their *Imaan*, who cherish human values more than material wealth, who honour their parents and their elders and are generally an asset to society at large, then such an investment will earn tremendous returns and benefits for the entire *Ummah*.

The *Maktab/Madrasah* has always played a pivotal role in developing the children of the *Ummah*. By and large it is at the *Maktab* that the child is equipped with all the basics of *Deen*, the fundamentals that enable him to live and practice as a true Muslim.

In communities where *Maktab* education is not provided, children grow up without knowledge of even the fundamentals of Islam. They are unable fulfil any of the tenets of *Deen* and in many cases are not even able to recite the *Kalimah* properly. *Maktab* education is essential in the life of every child and it is our duty as parents and guardians of our children to ensure they receive its instruction. 10 Jan. 11
