

Cape Town Water Project 2018

The Western Cape is currently experiencing a severe drought. Dam levels have reached critically low levels which has rendered tap water undrinkable. The Jamiat KZN has embarked on a project to provide 5litre bottled drinking water to various areas in Cape Town which are in urgent need of water. **Sponsor a 5litre bottle for R10.**

Sa'd bin 'Ubadah رضي الله عنه said, **“I asked, 'O Messenger of Allah, what charity is best?' He replied, ‘Providing drinking water.’”** (Ibn Majah)
