

PROJECT H.E.L.P

(Helping Empower Local People)

BOREHOLE INITIATIVE

Delft is an extremely poor township situated approximately 34km east of Cape Town. Despite water levels rising in dams, poorer communities are still subjected to water restrictions. The Jamiatul Ulama KZN Project H.E.L.P team, together with Gift of the Givers, have undertaken a project to drill a borehole at Masjidul Jumuah in Delft which will provide pure drinking water to the people of that area.

Sa'd bin 'Ubadah رضي الله عنه said, "I asked, 'O Messenger of Allah, what charity is best?' He replied, 'Providing drinking water.'" (Ibn Majah)

Kindly contribute to this local initiative. Jazakallah
